Subject: Invitation to attend a Training program on “Geospatial Big Data Analytics Applications for Sustainable Development”

Dear all,

Geo-Informatics and Space Technology Development Agency (GISTDA), ASEAN Research and Training Center for Space Technology and Applications (ARTSA) and The United Nations Institute for Training and Research (UNITAR)'s - Operational Satellite Application Programme referred to as UNOSAT are pleased to inform you that we are organizing regional training course on “Geospatial Big Data Analytics Applications for Sustainable Development” during August 5th– 9th, 2019, at Space Krenovation Park, Chonburi, Thailand.

The main purpose of the training program is the usage of geospatial information technology applications for big-data relevant to different domains of achieving Sustainable Development Goals (SDGs) such as land-use planning, environmental management, disaster monitoring. This training program will provide participants with theoretical understanding of Geo Big-Data within the context of geospatial data analysis, its applications for problem identification, assessment and decision support. Participants will be challenged to solve problem of their choice by developing simple decision support products.

GISTDA as the local host, are pleased to offer limited scholarships for participants including registration fee, materials, meals, coffee breaks, accommodation and local transportation. Please kindly be noted that scholarships, which are available to support participants, are limited for selected participants.

GISTDA is pleased to invite you to participate in this regional training course. The completed application form and required documents from candidates must be submitted by June 21st, 2019. Online application form is available at ARTSA's Website: <http://artsa.gistda.or.th/geobigdata2019>. Should you have further queries, please do not hesitate to contact Ms. Manpreet Sachasiri who is a contact point through email at manpreet@gistda.or.th.

Sincerely,

(Dr. Damrongrit Niammuad)
